

**Welcome**

**THE BEST BABY SHOWER  
CATERING SERVICE**

A baby shower is the perfect occasion to throw a party for expectant parents or even new parents with loved ones gathering to celebrate the occasion with food, fun and festive spirits.

Now that you've determined the baby shower theme & have the initial steps organized, it's time to finish the job and have an unforgettable baby shower.

### DETERMINE A DATE:

The baby shower should be held about four to eight weeks prior to the baby's due date. As with most events, the best days to host the event are the weekend days of Saturday or Sunday. It's often more economical and better for guests, especially if they've young children, to have the baby shower sometime between the morning or afternoon. Friday evening & Saturday evening will be the costliest and most booked blocks of time and many guests may pass if they've young children. It's best to choose 2 to 3 dates and then contact the most important guests and confirm their availability.

## LOCATION:

The majority of people host their events at their home or someone's else home when the guest list is short & intimate. This'll decrease the expenses significantly and increase the intimate setting of the event. Future moms & the small band of guests are likely to feel more comfortable and relaxed at your home or the home of one the guests since they have most likely visited before. Large baby showers are best held at restaurants with private rooms, or at some other large venue like a hotel.

## CATERING:

Catering is the most vital aspect of any party and baby shower catering is no exemption. Moreover, the catering bill always tops the list as far as expenditures are concerned. As such, it's essential that this aspect should be correctly planned so that guests relish the food and the ambience and the host doesn't have to pay through the nose.
