

Stunning Opal Jewelry Are Simply Incredible!

There are many kinds of organic opals. Most desired types of **Opal jewelry** include white, black, and fire opals. White opals, or so-called light opals, are white, yellow, or creamy in terms of color. White Opal is available mainly in body color for precious opals. Black opals have dark body color.

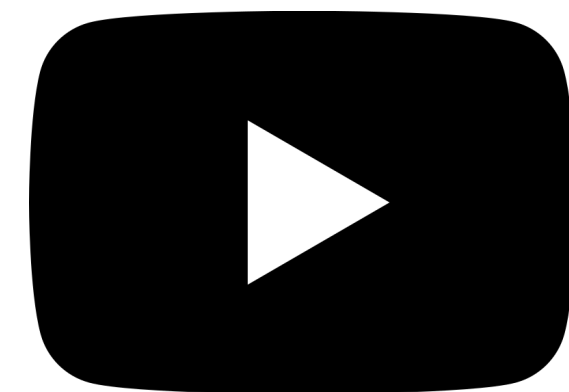

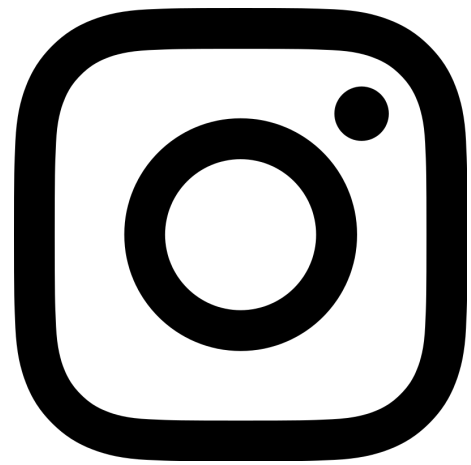

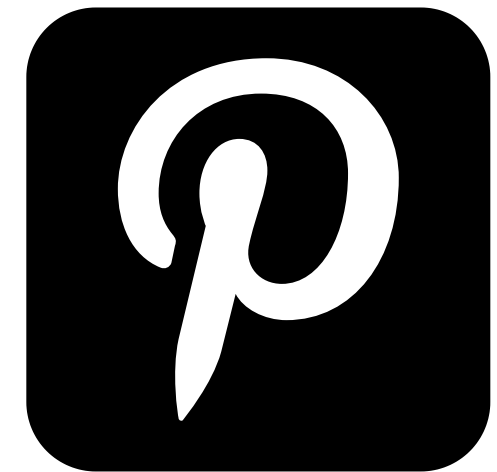

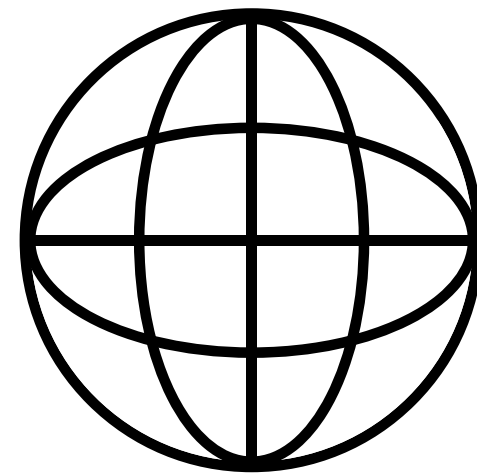

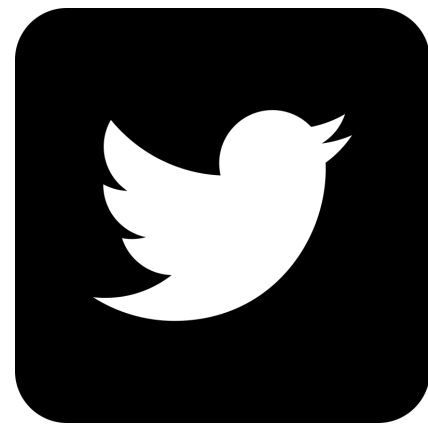

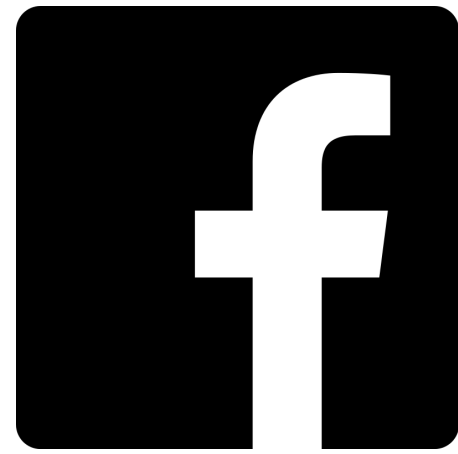

Opal is one of the most exuberant forms of Opal. As a result, the price of a White **Opal Ring** can vary depending on body tone, color, thickness, brilliance, and the pattern that sparks beneath the surface. October birthstone is a unique gem for arousing light and spontaneity. People working on creative projects should wear Opal gemstone trinkets. Opal crystal is a bringer of luxury, fortune, and luck.
