

Can't Verify The Signature" Installation error in Office 2019

Common Troubleshooting Steps To Fix "Can't Verify The Signature" or failed to verify signature Error Messages:

Considering this issue happens due to the network sources, we advise you the following steps.

Method 1: Try a wired Internet connection

If you're using a wireless connection, try connecting your computer through a network cable instead. This may also speed up the download and install process.

Method 2: Clear temporary Internet files

To clear temporary Internet files on Internet Explorer automatically, run fix it.

Windows 10:

1. Press the Windows logo key + X to see a list of commands and options. (Basically a quick way to get to Programs and Features in Control Panel.)
2. Click Programs and Features.
3. Click the Office program you want to repair, and then click Change.

Do one of the following:

- In Office 2010, click Repair > Continue.
- In Office 2013, click Quick Repair.
- MS Office 2016, click Quick Repair.
- In Office 2019, click Quick Repair.

You might need to restart your computer after the repair is complete.

#failed to verify signature,

the digital signature for this file couldn't be verified
