

Repair Service in all over British Columbia and Washington.

# Heavy-Duty Alignment

---

ALL CARE, EASY DRIVING

## Heavy-Duty Truck Alignment In Surrey

Truck alignment refers to the adjustment of the suspension components, including the wheels and tires, to ensure that they are perpendicular to the ground and parallel to each other.

# Truck And Trailer Alignment

Commercial truck wheel alignment is an important aspect of **fleet maintenance**, it helps improve handling, reduce tire wear, and increase fuel efficiency. Truck alignment involves the adjustment of wheels and tire components to match the manufacturer's specifications.

## Benefits of heavy-duty truck alignment

- ✓ Even tire wear
- ✓ Improved drivability
- ✓ Reduced wear on front-end suspension
- ✓ Safer vehicle operation
- ✓ Lower operational costs
- ✓ Better fuel economy

## Professional wheel alignment is needed if,

- ✓ Uneven or premature tire wear.
- ✓ Steering wheel vibration.
- ✓ Off-center steering wheel while driving straight.
- ✓ Pulling to one side while driving.

- ✔ Involved in a collision.
- ✔ Driven 20,000 to 40,000 km without alignment.

A worker in a red jumpsuit and cap is working on the engine of a truck. The worker is wearing a dark cap and a red jumpsuit with reflective stripes. The truck's engine compartment is open, and the worker is leaning over it, working on the engine. The background shows a building and some trees.
