

Body Protector To Keep Your Young Riders Safe On The Trails

leattmtb.com.au

Riding a mountain bike is thrilling, but as a parent, ensuring your child's safety is priority number one. Leatt MTB understands this concern and offers a comprehensive solution with its body protection gear for **junior mountain bikers**. This gear is designed to provide top-notch safety without compromising comfort, allowing young riders to enjoy their adventures to the fullest.

Complete Body Protection Gear For Junior Mountain Bikers

Our full-coverage body protector is lightweight yet robust. It provides maximum safety for the torso and back and conforms to the body, allowing for unrestricted movement on the bike.

By equipping your young riders with Leatt MTB's protective gear, you're ensuring:

- Chest, Back, Shoulders, and Elbows protection
- Foam Side Padding for added security
- Lightweight and Breathable materials to enhance comfort

Ensure Safety With Leatt MTB Junior Body Protection Gear

Investing in quality mountain bike gear is essential for your junior body protection. With Leatt MTB's Junior Body Protection, every inch of your child's body is guarded against potential injuries. We've curated a range of products to protect young riders without compromising comfort or style. Our junior body protection mountain bike gear is rigorously tested to meet the highest safety standards and offer maximum defence without hindering performance.
